SUBJECT: Environmental Impact Report for the Ione General Plan Update

In discharging its duties under Section 15021 of the State California Environmental Quality Act (CEQA) Guidelines, the City of Ione (as Lead Agency) intends to prepare an Environmental Impact Report for the City of Ione General Plan Update (proposed project). In accordance with Section 15082 of the State CEQA Guidelines, the City of Ione has prepared this Notice of Preparation to provide Responsible Agencies and other interested parties with sufficient information describing the proposed project and its potential environmental effects.

Project Name: Ione General Plan Update

Project Location: The City of Ione is located in southwestern Amador County approximately 30 miles southeast of Sacramento and 30 miles northeast of Stockton at the junction of State Highways 124 and 104 (see **Figure 1** for the regional location). The Ione General Plan Planning Area boundary (the study area for the General Plan update) encompasses approximately 31,770 acres and includes the existing City limits, sphere of influence (SOI), and lands just beyond the SOI (see **Figure 2** for the General Plan Planning Area).

Project Description: The proposed project consists of adoption of an updated General Plan for the City of Ione, an SOI amendment and annexation of land associated with the City's wastewater treatment plant and additional land(s), updates to the City's Zoning Code (Title 17 of the City's Municipal Code), and various roadway improvements.

The determination to prepare an Environmental Impact Report (EIR) for this project was made by the City of Ione. The EIR will address the following environmental issues:

- Aesthetics
- Agriculture
- Air Quality
- Biological Resources
- Cultural Resources
- Geology/Soils
- Hazards/Hazardous Materials
- Hydrology/Water Quality
- Land Use/Planning
- Mineral Resources
- Noise
- Population/Housing/Employment
- Public Services/Utilities
- Recreation
- Transportation/Traffic

As specified by the State CEQA Guidelines and the City's local CEQA Guidelines, the Notice of Preparation will be circulated for a 30-day review period. The City of Lone welcomes agency and public input during this review. In the event that no response or request for additional time is received by any Responsible Agency by the end of the review period, the Lead Agency may presume that the Responsible Agency has no response.

Comments may be submitted in writing during the review period and addressed to:

RE: Notice of Preparation Comment Letter
Environmental Impact Report
City of Lone General Plan Update

Dear Mr. Jordan:

Amador Water Agency ('AWA') appreciates the opportunity to review and comment on the Notice of Preparation ('NOP') for the Environmental Impact Report ('EIR') for the City of Lone General Plan Update ('General Plan'). Below are concepts to be considered while preparing the Draft EIR for the General Plan.

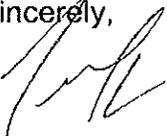

1. AWA fully supports the concept of wastewater recycling as discussed in the NOP for the Program and Project-Specific EIR for the City of Lone Wastewater Master Plan ('Master Plan'). The Master Plan NOP references the possible use of recycled water at nearby facilities, such as Howard Park and Unimin. Wastewater recycling is one of several key components of the overall AWA water management portfolio. Utilizing recycled water in lieu of treated water will significantly extend the water supplies of Amador County beyond 2030. The General Plan EIR should consider whether areas of potential growth identified by the City Council but not contemplated in the Master Plan NOP are suitable for irrigation with reclaimed water.
2. Typical average daily demand within the Amador Water System ('AWS') is 400 gallons per day ('gpd') and peak day demand within the AWS is 800 gpd.
3. In the long-term, expansion of the Tanner Water Treatment Plant ('WTP') is required to meet demands contemplated by the General Plan. The existing raw water pipeline will be converted to treated water and a small section of pipeline will be constructed. Once the new Tanner WTP is on-line, the Lone WTP will be decommissioned. In the short-term, AWA may consider interim improvements to

the lone WTP to provide additional capacity for the projects currently holding a tentative map (such as Castle Oaks and Wildflower).

Please feel free to contact me at 257-5293 with any questions, comments, or concerns regarding the contents of this letter.

Sincerely,

Dear Mr. Jordan:

The Department of Fish and Game (DFG) has reviewed the Notice of Preparation of a draft Environmental Impact Report (DEIR) for the City of Lone's General Plan Update (SCH #2009012038). The project consists of an update of the lone General Plan, an SOI amendment, and the annexation of land associated with the City's wastewater treatment plant. The project is located in Lone, Amador County.

Wildlife habitat resources consist of urban and residential development set in a mixture of rolling oak woodlands, chaparral, and agricultural land. Significant natural resources of the project include habitat for sensitive species. Additionally, Mule Creek and Sutter Creek flow through the plan area.

We recommend that the DEIR discuss and provide adequate mitigation for the following concerns:

- 1. The project's impact upon fish and wildlife and their habitat.
2. The project's impact upon significant habitat such as wetlands including vernal pools and riparian habitat.
3. The project's impact to special status species including species which are state and federal listed as threatened and endangered.

Parry's horkelia (Horkelia parryi)
Irish hill buckwheat (Eriogonum apricum var. prostratum)

lone buckwheat (*Eriogonum apricum* var. *apricum*)
Bisbee peak rush-rose (*Helianthemum suffrutescens*)
California tiger salamander (*Ambystoma californiense*)
northwestern pond turtle (*Actinemys marmorata marmorata*)
California linderiella (*Linderiella occidentalis*)
Valley elderberry long-horned beetle (*Desmorcerus californicus*
dimorphus)

4. The project's growth inducing and cumulative impacts upon fish, wildlife, water quality and vegetative resources.
5. The DEIR should provide an analysis of specific alternatives which reduce impacts to fish, wildlife, water quality and vegetative resources.
6. The DEIR should contain an evaluation of the proposed projects consistency with the applicable land use plans, such as General Plans, Specific Plans, Watershed Master Plans, Habitat Conservation Plans, etc.

The DEIR should consider and analyze whether implementation of the proposed project will result in reasonably foreseeable potentially significant impacts subject to regulation by the DFG under section 1600 et seq. of the Fish and Game Code. Such impacts result whenever a proposed project involves work undertaken in or near a river, stream, or lake that flows at least intermittently through a bed or channel, including ephemeral streams and water courses. Impacts triggering regulation by the DFG under these provisions of the Fish and Game Code typically result from activities that:

- Divert, obstruct, or change the natural flow or the bed, channel or bank of any river, stream, or lake;
- Use material from a streambed; or
- Result in the disposal or deposition of debris, waste, or other material where it may pass into any river stream, or lake.

In the event implementation of the proposed project involves such activities, and those activities will result in reasonably foreseeable substantial adverse effects on fish or wildlife, a Lake or Streambed Alteration Agreement (LSAA) will be required by the DFG. Because issuance of a LSAA is subject to review under the California Environmental Quality Act (CEQA), the DEIR should analyze whether the potentially feasible mitigation measures will avoid or substantially reduce impacts requiring a LSAA from the DFG.

This project will have an impact to fish and/or wildlife habitat. Assessment of fees under Public Resources Code Section 21089 and as defined by Fish and Game Code Section 711.4 is necessary. Fees are payable by the project applicant upon filing of the Notice of Determination by the lead agency.

Pursuant to Public Resources Code Sections 21092 and 21092.2, the DFG requests written notification of proposed actions and pending decisions regarding this project. Written notifications should be directed to this office.

Thank you for the opportunity to review this project. If the DFG can be of further assistance, please contact Mr. Dan Gifford, Staff Environmental Scientist, telephone (209) 369-8851 or, Mr. Jeff Drongesen, Senior Environmental Scientist, telephone (916) 358-2919.

Dear Mr. Jordan:

Caltrans appreciates the opportunity to have reviewed the Notice of Preparation for the Draft Environmental Impact Report (DEIR) for the City of Ione's General Plan Update (GPU), to be prepared by the City of Ione. The study area for the GPU comprises approximately 31, 770 acres and includes the existing City limits, sphere of influence (SOI) and lands just beyond the SOI. The City of Ione is located at the junction of State Routes (SR) 124/104 in southwestern Amador County.

Caltrans will provide comments upon review of the Draft Environmental Impact Report, when it becomes available.

- We appreciate that the City continues to coordinate and consult with Caltrans to identify and address potential cumulative transportation impacts that may occur from this and other development projects near this geographical location. These efforts assist Caltrans with maintaining traffic safety standards for the traveling public on existing and future state transportation facilities in the City of Ione.

If you have any questions or would like to discuss this letter in more detail, please contact Kathleen McClafin at (209) 948-7647 (email: Kathleen_mcclafin@dot.ca.gov) or myself at (209) 948-7112.

Re: Notice of Preparation (NOP), Draft Environmental Impact Report (DEIR)
City of Ione General Plan Update/SCH# 2009012038

Dear Mr. Jordan:

As the state agency responsible for rail safety within California, the California Public Utilities Commission (CPUC or Commission) recommends that development projects proposed near rail corridors be planned with the safety of these corridors in mind. New developments and improvements to existing facilities may increase vehicular traffic volumes, not only on streets and at intersections, but also at at-grade highway-rail crossings. In addition, projects may increase pedestrian traffic at crossings, and elsewhere along rail corridor rights-of-way. Working with CPUC staff early in project planning will help project proponents, agency staff, and other reviewers to identify potential project impacts and appropriate mitigation measures, and thereby improve the safety of motorists, pedestrians, railroad personnel, and railroad passengers.

The Commission recommends that the City include consideration of potential project-related rail safety impacts and measures to reduce adverse impacts of the proposed project to the rail corridor located in the middle of this project. The project's traffic impact study (TIS) is the mechanism by which to address these concerns since it will be the basis for the analysis within the Transportation/Circulation section of the DEIR.

In general, the major types of impacts to consider are collisions between trains and vehicles, and between trains and pedestrians. Changes in land use should not be allowed that would permit housing adjacent to existing rail yards. Similarly, where a need for grade-separated crossings is identified, new development should not be placed adjacent to at-grade highway rail crossings, within the footprint of land needed for future grade-separation structures.

General categories of measures to reduce potential adverse impacts on rail safety include:

- Installation of grade separations at crossings, i.e., physically separating roads and railroad track by constructing overpasses or underpasses
- Improvements to warning devices at existing highway-rail crossings
- Installation of additional warning signage
- Improvements to traffic signaling at intersections adjacent to crossings, e.g., traffic preemption
- Installation of median separation to prevent vehicles from driving around railroad crossing gates

Christopher Jordan
City of Ione
SCH#2009012038
February 13, 2009
Page 2 of 2

- Where soundwalls, landscaping, buildings, etc. would be installed near crossings, maintaining the visibility of warning devices and approaching trains
- Prohibition of parking within 100 feet of crossings to improve the visibility of warning devices and approaching trains
- Installation of pedestrian-specific warning devices and channelization
- Installation of additional traffic lanes through the crossing to accommodate additional traffic
- Construction of pull-out lanes for buses and vehicles transporting hazardous materials
- Installation of vandal-resistant fencing or walls to limit the access of pedestrians onto the railroad right-of-way
- Elimination of driveways near crossings
- Increased enforcement of traffic laws at crossings
- Rail safety awareness programs to educate the public about the hazards of highway-rail grade crossings

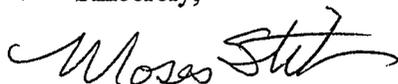

CPUC also encourages localities to set up mechanisms whereby new developments pay a fair share of their impact costs to fund the above measures if not already in an existing Fee program by the City or a Regional Fee program.

Commission approval is required to modify an existing highway-rail crossing or to construct a new crossing.

Please forward the revised Traffic impact Study (TIS) scope, so we may have an opportunity to review the proposed analysis which will make our review more efficient and expedient during the DEIR.

Thank you for your consideration of these comments and we look forward to working with the City on this project. If you have any questions in this matter, please contact me at (415) 713-0092 or email at ms2@cpuc.ca.gov.

Subject: Ione General Plan Update
SCH# 2009012038
Notice of Preparation

Date: February 17, 2009

Mr. Christopher Jordan,

CAL FIRE has reviewed your Notice of Preparation for the proposed General Plan for the City of Ione, SOI amendment, Planning Area, and annexation of land.

CAL FIRE has the following recommendation to the updated Ione General Plan:

- 1) For the City of Ione to adopt the Ione Very High Fire Hazard Severity Zone map. Areas that fall within these zones should be referenced in the General Plan. Development in these areas are required to meet the WUI Building Codes, Defensible Space Standards, and any other applicable law. CAL FIRE has transmitted the map to the City of Ione but it has not been adopted. As per Government Code Sections 51178.5 and 51179 the city is responsible for designating, by ordinance, the Very High Fire Hazard Severity Zones in its jurisdiction. CAL FIRE consulted Ione's City Manager and Fire Chief during development of the map.

CAL FIRE would also like to inform you of the following:

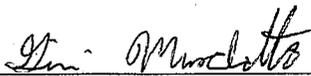

- 1) The areas identified within the Planning Area Boundary that are outside of the city limit boundaries are classified as State Responsibility Areas (SRA) per Public Resources Codes 4125 – 4128. Cal Fire has the responsibility for preventing and suppressing fires in these areas.

Development into these areas prior to annexation into the City is required to meet the State Fire Safe Regulations (PRC 4290), Defensible Space Standards (PRC 4291), WUI Building Codes, and any other applicable laws.

If these areas are annexed into the City prior to development, the City of Ione would then assume the fiscal responsibility for preventing and suppressing fires in those areas, which includes wildland fires.

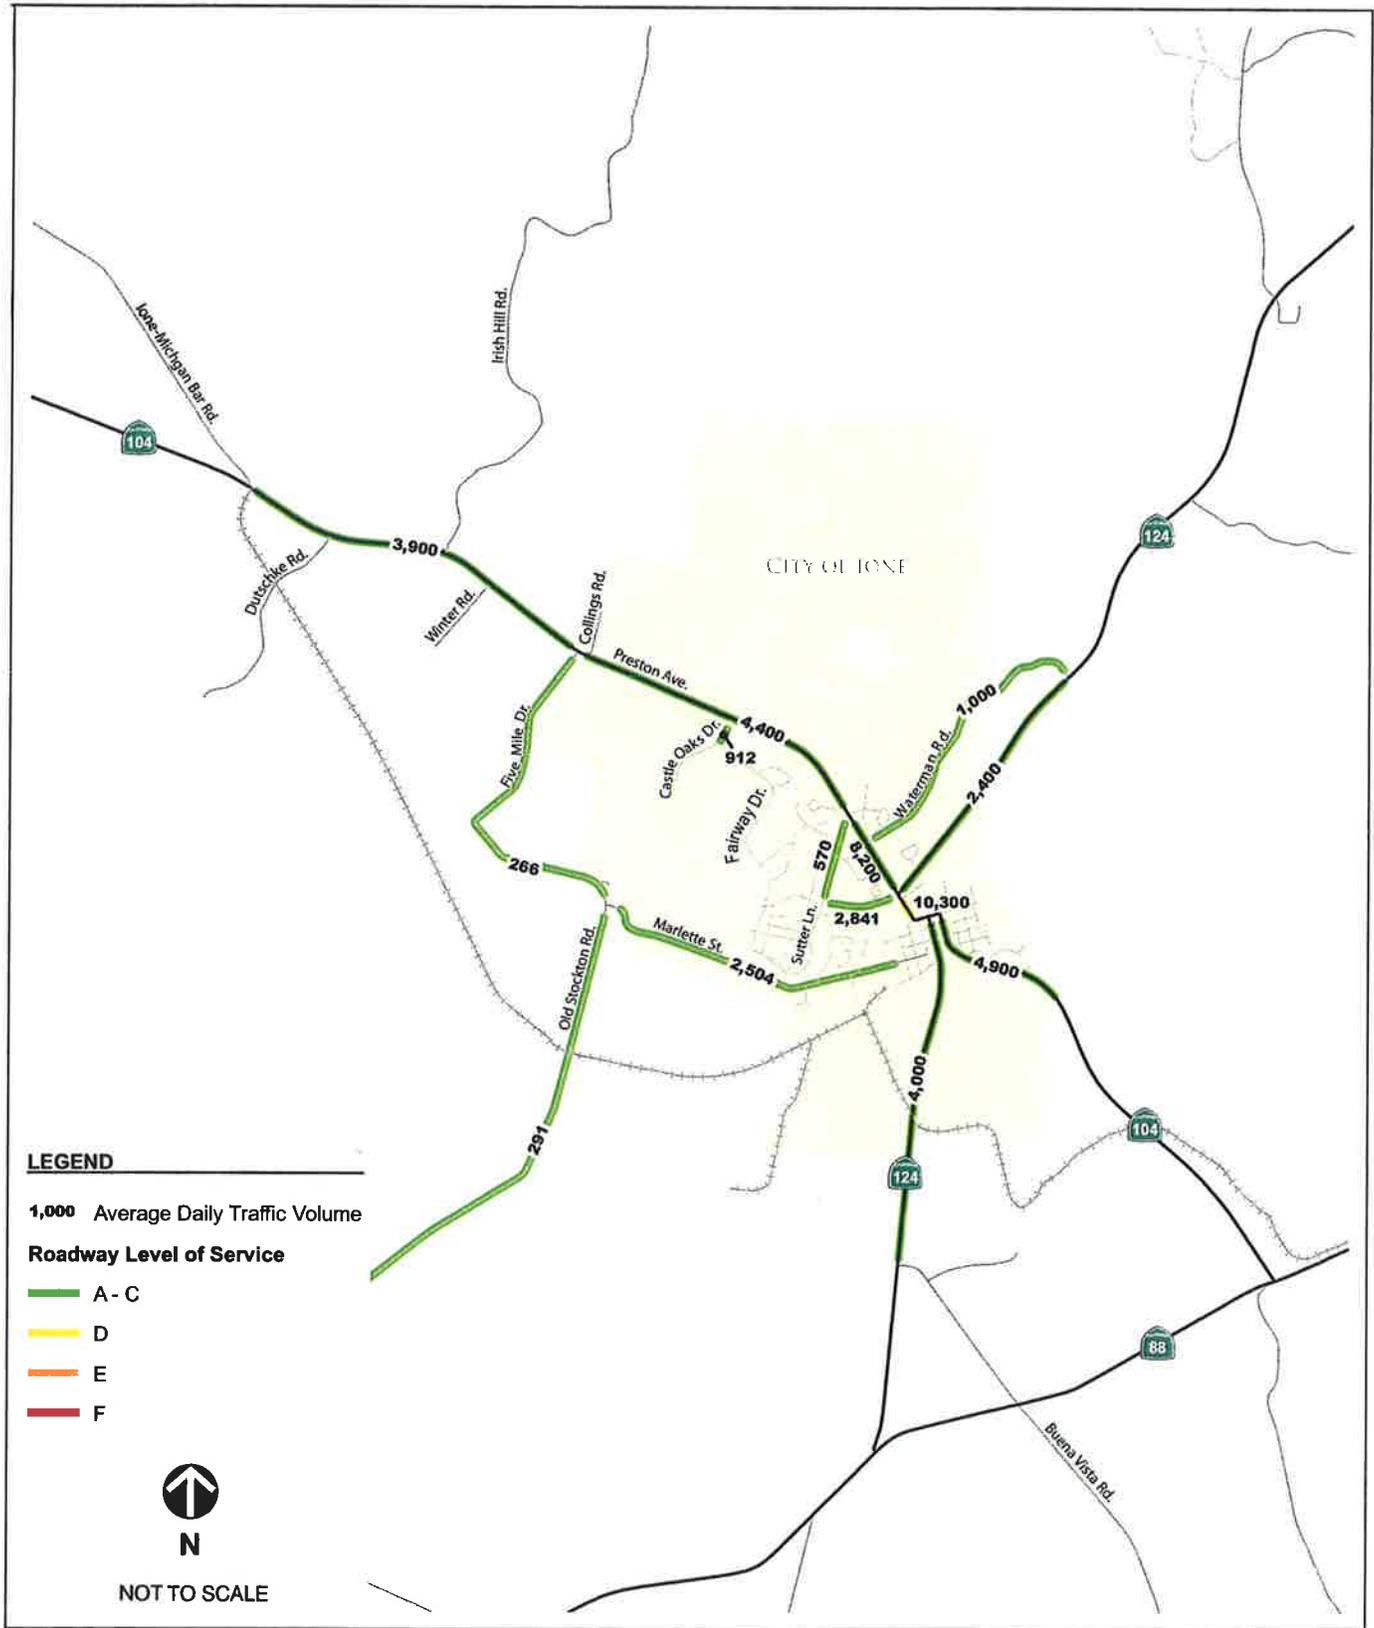

- 2) When new areas are annexed into the City and CAL FIRE is advised, the Ione Very High Fire Hazard Severity Zone map will be updated and provided to the City.
- 3) The Fire Hazard Severity Zone map for the Planning Area outside of the City limits is approved and on file with the County of Amador.

Subject: Species List for City of Ione, General Plan EIR

Dear: Ms. Griggs

We are sending this official species list in response to your October 29, 2008 request for information about endangered and threatened species. The list covers the California counties and/or U.S. Geological Survey 7½ minute quad or quads you requested.

Our database was developed primarily to assist Federal agencies that are consulting with us. Therefore, our lists include all of the sensitive species that have been found in a certain area *and also ones that may be affected by projects in the area*. For example, a fish may be on the list for a quad if it lives somewhere downstream from that quad. Birds are included even if they only migrate through an area. In other words, we include all of the species we want people to consider when they do something that affects the environment.

Please read Important Information About Your Species List (below). It explains how we made the list and describes your responsibilities under the Endangered Species Act.

Our database is constantly updated as species are proposed, listed and delisted. If you address proposed and candidate species in your planning, this should not be a problem. However, we recommend that you get an updated list every 90 days. That would be January 27, 2009.

Please contact us if your project may affect endangered or threatened species or if you have any questions about the attached list or your responsibilities under the Endangered Species Act. A list of Endangered Species Program contacts can be found at www.fws.gov/sacramento/es/branches.htm.

Important Information About Your Species List

How We Make Species Lists

We store information about endangered and threatened species lists by U.S. Geological Survey 7½ minute quads. The United States is divided into these quads, which are about the size of San Francisco.

The animals on your species list are ones that occur within, **or may be affected by** projects within, the quads covered by the list.

- Fish and other aquatic species appear on your list if they are in the same watershed as your quad or if water use in your quad might affect them.
- Amphibians will be on the list for a quad or county if pesticides applied in that area may be carried to their habitat by air currents.

- Birds are shown regardless of whether they are resident or migratory. Relevant birds on the county list should be considered regardless of whether they appear on a quad list.

Plants

Any plants on your list are ones that have actually been observed in the area covered by the list. Plants may exist in an area without ever having been detected there. You can find out what's in the surrounding quads through the California Native Plant Society's online [Inventory of Rare and Endangered Plants](#).

Surveying

Some of the species on your list may not be affected by your project. A trained biologist or botanist, familiar with the habitat requirements of the species on your list, should determine whether they or habitats suitable for them may be affected by your project. We recommend that your surveys include any proposed and candidate species on your list.

For plant surveys, we recommend using the [Guidelines for Conducting and Reporting Botanical Inventories](#). The results of your surveys should be published in any environmental documents prepared for your project.

Your Responsibilities Under the Endangered Species Act

All animals identified as listed above are fully protected under the Endangered Species Act of 1973, as amended. Section 9 of the Act and its implementing regulations prohibit the take of a federally listed wildlife species. Take is defined by the Act as "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect" any such animal.

Take may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or shelter (50 CFR §17.3).

Take incidental to an otherwise lawful activity may be authorized by one of two procedures:

- If a Federal agency is involved with the permitting, funding, or carrying out of a project that may result in take, then that agency must engage in a formal [consultation](#) with the Service.

During formal consultation, the Federal agency, the applicant and the Service work together to avoid or minimize the impact on listed species and their habitat. Such consultation would result in a biological opinion by the Service addressing the anticipated effect of the project on listed and proposed species. The opinion may authorize a limited level of incidental take.

- If no Federal agency is involved with the project, and federally listed species may be taken as part of the project, then you, the applicant, should apply for an incidental take permit. The Service may issue such a permit if you submit a satisfactory conservation plan for the species that would be affected by your project.

Should your survey determine that federally listed or proposed species occur in the area and are likely to be affected by the project, we recommend that you work with this office and the California Department of Fish and Game to develop a plan that minimizes the project's direct and indirect impacts to listed species and compensates for project-related loss of habitat. You should include the plan in any environmental documents you file.

Critical Habitat

When a species is listed as endangered or threatened, areas of habitat considered essential to its conservation may be designated as [critical habitat](#). These areas may require special management considerations or protection. They provide needed space for growth and normal behavior; food, water, air, light, other nutritional or physiological requirements;

cover or shelter; and sites for breeding, reproduction, rearing of offspring, germination or seed dispersal.

Although critical habitat may be designated on private or State lands, activities on these lands are not restricted unless there is Federal involvement in the activities or direct harm to listed wildlife.

If any species has proposed or designated critical habitat within a quad, there will be a separate line for this on the species list. Boundary descriptions of the critical habitat may be found in the Federal Register. The information is also reprinted in the Code of Federal Regulations (50 CFR 17.95). See our [critical habitat page](#) for maps.

Candidate Species

We recommend that you address impacts to candidate species. We put plants and animals on our candidate list when we have enough scientific information to eventually propose them for listing as threatened or endangered. By considering these species early in your planning process you may be able to avoid the problems that could develop if one of these candidates was listed before the end of your project.

Species of Concern

The Sacramento Fish & Wildlife Office no longer maintains a list of species of concern. However, various other agencies and organizations maintain lists of at-risk species. These lists provide essential information for land management planning and conservation efforts. [More info](#)

Wetlands

If your project will impact wetlands, riparian habitat, or other jurisdictional waters as defined by section 404 of the Clean Water Act and/or section 10 of the Rivers and Harbors Act, you will need to obtain a permit from the U.S. Army Corps of Engineers. Impacts to wetland habitats require site specific mitigation and monitoring. For questions regarding wetlands, please contact Mark Littlefield of this office at (916) 414-6580.

Updates

Our database is constantly updated as species are proposed, listed and delisted. If you address proposed and candidate species in your planning, this should not be a problem. However, we recommend that you get an updated list every 90 days. That would be January 27, 2009.

Re: Proposed City of Ione General Plan EIR, Amador County

Dear Ms. Lambert:

A record search of the sacred land file has failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the sacred lands file does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Enclosed is a list of Native Americans individuals/organizations who may have knowledge of cultural resources in the project area. The Commission makes no recommendation or preference of a single individual, or group over another. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated, if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe or group. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from any of these individuals or groups, please notify me. With your assistance we are able to assure that our lists contain current information. If you have any questions or need additional information, please contact me at (916) 653-4038.

Sincerely,
