

Parks and Maintenance

The City of Lone Parks and Maintenance Department manages community and neighborhood parks, street trees, landscapes, streetscapes, greenbelts, open space, athletic field facilities, public buildings, swimming pool, buildings located within park facilities, City facilities and buildings, and offices utilized by City departments. The division performs a wide range of building and equipment repairs, emergency facility calls, preventive maintenance, and building alterations and provides the public with safe, accessible and aesthetic facilities. The division also manages the work of private vendors who provide specialized maintenance and construction services. Custodial services for all buildings maintained are provided to ensure a safe and clean environment for users.
